## “A New Beginning”

**O**ddly enough, the only title that came to me for this closing chapter was Genesis. No other word more clearly reflects the point at which we have arrived. It is the beginning of a different you - a new creation that has occurred through the revelatory process of reflection. You have applied this process to yourself in order to discover who you really are. You've also discovered the instruments you possess that can manifest the unlimited possibilities of what you can become - permanently!

You are now empowered to truly understand the force that drives you to succeed and how to harness it in ways you never imagined possible, *until now*. By developing your own *FaithSkills* based Personal Operating System, you will be able to exercise faith in yourself and become a beacon of positive influence at a time when the world yearns to have faith in itself.

If you doubt that *FaithSkills* work, consider this. At this very moment, you are reading my book. That action is fulfillment of my exercising faith in myself to write this book. You have also become aware of your spirit and the incredible influence it can have on your life. I hope you will incorporate it into all aspects of your life so you can become all that you want to be. You will then begin to fulfill my vision to change the way people look at themselves.

There has not been a more delicate time in the history of the world than right now. We must regain faith in ourselves, in our families and in our nations more than ever before, or we will fulfill the age-old adage: *Without faith, you are nothing*.

You are more capable of making a difference than ever before because you now know how to exercise faith in yourself. This ability will allow you to unleash the magnificent creation that you are, to the benefit of everyone who surrounds you.

One at a time, we will make the world a better place!

I am committed to this cause and want to offer continuing support to you while you develop your own personal system for achieving success. Please consider the adjoining invitation to join the Sage Academy! By doing this, you will help us create an empowering Sage Community. **Notes on your Personal Daily Outward Needs Filling Process:**

The second sage cogitator is the Weekly Summary of your Progression to Develop *FaithSkills*.

This sheet mirrors to you the actual evolution of your transition from physical abilities (body), to intellectual skills (mind), to the ultimate, spiritual talents - *FaithSkills*.

As you will discover, with the consistent use of this form, your quality of happiness or state of being will greatly intensify as you increase your percentage of *FaithSkills* use throughout the week.

By tracking your daily use, no matter how minute, you will see that the application of *FaithSkills* definitely enhances your quality of life.

Also, **please note**; you will discover that as you master *FaithSkills*, all of your percentages will increase across the board, because you can't fully exercise a *FaithSkill* talent without manifesting or including it's relating skill and ability.

We become a well-rounded person - whole - so to speak, as we progress in the use of *FaithSkills*.

Thirdly, there is the Weekly Development of Virtues worksheet, which is intended to reveal to you the systematic process by which you are "flexing" your *FaithSkills*. It will not only demonstrate how they satisfy your fundamental needs, but will also manifest the fact that the use of *FaithSkills* will usually develop virtues, which touch others. That's because *FaithSkills* are most effectively developed in acts of service. It's where they're the most potent, and thus, the most energizing.
